Total Experience 1+ Years

Summary

Enthusiastic software developer with expertise in procedural programming languages including C, along with proficiency in object-oriented programming in C++, Java, and C# .Net, Asp.Net MVC. Well-versed in web technologies like HTML, CSS, and JavaScript, with hands-on experience in SQL and MySQL databases. Eager to apply skills and contribute to innovative software projects.

Experience

CloudZent Technology and Services (6+ Months Exp)   (Gurugram, Haryana.   Jul 2024 – Present)

Projects: -

1. **Voltas Project**
    - Role: API Development and OCR Implementation for an Enterprise-Level Project.
    - Built APIs for login, forgot password, and extracting invoice final amounts using OCR.
    - Designed multiple regex patterns for handling diverse invoice formats in OCR integration.
    - Collaborated with a team using GitHub, ensuring seamless version control.
    - Worked on an enterprise-grade solution for the Voltas brand, focusing on reliability and scalability.

2. **Spark Minda Project**
    - Developed backend logic using ASP.NET Core and MSSQL, delivering robust and maintainable solutions.
    - Contributed to coding tasks while ensuring adherence to project deadlines and quality standards.
    - Coordinated with the team using GitHub for efficient collaboration and project management.

Exec Software Solutions   (Karad, Nov 2023 – May 2024)

Dot Net Developer Intern (6 Months of Exp)

Project: -

1. **HR Management System**
    - Worked as an intern on the HR Management System project.
    - Contributed to basic frontend development tasks.
    - Created basic wireframes and prototypes using Figma to aid in UI/UX planning
    - Assisted in backend development using .NET, gaining foundational experience in software engineering

Education

Master of Computer Science: -

Dr. D Y Patil Science and Computer Science College, Pune.   **Oct 2022 - Jul 2024**

Bachelor of Computer Science: -

Yashwantrao Chavan College of Science, Karad.   **Jun 2019 - Jul 2022**

HSC: -

Yashwantrao Chavan College of Science, Karad.   **Jun 2018 - Feb 2019**

SSC: -

New English School Vihe.   **Jun 2016 - Mar 2017**

Projects

Aggrotech Web Application   **Jun 2023 - Jan 2024**

- Developed and implemented a robust ASP.NET MVC web Application to efficiently manage various aspects of the agricultural industry, including Products, Payment Method, and Currier Products. (Add, Update, Delete)

- Leveraged HTML, CSS, and JavaScript to design and develop a user-friendly interface, ensuring seamless navigation and enhanced user experience.

- Utilized MS SQL database technology to securely store and retrieve critical information related to products, payment methods, and logistics, enabling smooth operations and data management.

- Spearheaded the creation of a comprehensive Aggrotech Website, employing industry best practices and innovative solutions to streamline processes and boost operational efficiency.
